

Airplan Flight Equipment is proud to support the 54th Coupe Aéronautique Gordon Bennett 2010

2010 Bristol 54th Coupe Aéronautique GORDON BENNETT International Gas Balloon Race

Are you prepared for a sea landing?

As flight director Don Cameron wrote in the last GB UK newsletter, the race is taking place in the UK for the first time this year. This means that competitors are required to equip themselves with survival aids should a sea landing become unavoidable.

Each balloon will therefore need to carry:

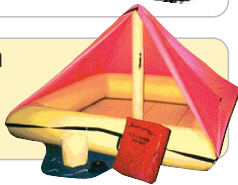

- 2x Lifejackets
- 1x Liferaft
- 1x Personal Locator Beacon

Airplan Flight Equipment is pleased to offer the following discounted rates to competitors:

GA2 Lifejacket (includes sea light, whistle & crotch strap)
£47.95 each (Normal price £59.95)

Survival Products 4-6 man Liferaft with canopy
(weighs just 6.3 kilos)
£1,169.00 each

Kannad XS4 Personal Locator Beacon
(121.5 MHz, 406 MHz & 50-channel GPS)
£175.00 each (Normal price £229.95)

Special price

Be seen, be heard and find your way!

In addition to survival aids, all balloons must be equipped with the following:

- 1x EASA approved Mode S Transponder
- 1x EASA approved VHF Transceiver
- 1x CAA 1:500,000 Southern England Aeronautical Chart

Airplan Flight Equipment's special offers on the above items are:

Self-contained Trig TT21 Mode S Transponder unit
- £1,779.95 each (Normal price £1995.00)

The transponder is housed in a portable box with integral 12v/7AH battery and charging port. A transponder antenna and battery charger is included in the package.

Special price

Self-contained Funkwerk ATR500 760 channel transceiver unit
- £1,299.95 each (Normal price £1495.00)

The transceiver is housed in a portable box with integral 12v/7AH battery, charging port and speaker. A handheld microphone/PIT, VHF antenna and battery charger are included in the package.

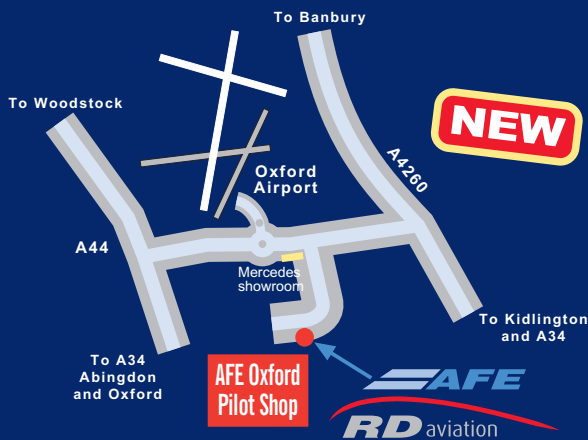

Special price

For self-contained Transponder and Transceiver units, orders must be received by 1st September 2010

CAA 1:500,000 Southern England Aeronautical chart
- £12.79 each (Normal price £15.95)

Special price

AFE Oxford Pilot Shop

Breathe easy!

For flights above 10,000ft it is also recommended that portable oxygen systems are carried. Airplan Flight Equipment is the UK's premier supplier of Mountain High Oxygen Systems. Mountain High are industry leaders in light-weight portable oxygen systems and Airplan Flight Equipment has been a specialist supplier in this field for more than 10 years.

Portable oxygen systems are available in a variety of configurations, from as little as £345.00. Should you require a system, we recommend that you contact us direct for advice on a package to best suit your requirements. Either e-mail our technical advice specialists at tech@afeonline.com or call our Oxford Airport premises on +44 (0)1865 841441.

Airplan Flight Equipment are pleased to offer free advice and technical support, including charging of Oxygen Cylinders, at their Oxford Branch. Free delivery on all orders to Cameron Balloons.
